The Next Generation of the Twin Gear Juice Extractor

Green Star Elite features advanced 3 stage juicing technology with the new revolutionary Jumbo Twin Gears

Leading the growing trend of health and awareness, Tribest Corporation unleashes the next generation of the revolutionary Green Star Juice Extractor, designed to improve performance and versatility while offering higher juice yields and nutritional value from your fruits and vegetables.

GSE-5000 includes:

Features

Higher Yields Designed to maximize the yield and nutritional value of your juice, Advanced Heavy Duty Jumbo Twin Gears, with the same magnetic and bioceramic technology as the original twin gears, extend the juicing process from two to three stages - crushing, mixing, and pressing.

Added Safety Green Star Elite prevents injury by eliminating your chances of interacting with moving parts by including a safety switch system attached to the safety hood, which disables operation when the hood is removed.

Easy Clean Up By combining parts through the new sleek design, there are fewer parts, which means there is less to clean. Additionally, the included safety hood can be used as a basket to cradle the juicing parts after cleaning providing you with storage space for drying without taking up any additional space on the counter.

New Locking Mechanism By changing the locking system from removable turning knobs to a stationary latching system, the new one snap step offers optimum convenience and an easier way to assemble and disassemble the machine.

Detachable Electric Cord No more tangled cords! Allows you to

maintain the integrity of the cord.

New Sleek Design The new modern lightweight streamlined look matches to any kitchen counter complimenting your kitchen style and design.

New Easy Grip Outlet Adjusting Knob The knob has been re-designed to include easy grip ridges so you can easily grasp, turn and manually control the pressure inside the machine quickly so you can juice a wider variety of fruits and vegetables of different consistencies.

Carrying Handle Designed to add convenience making it easier for you to move your machine.

Increased Versatility By adding the mixing stage in between the crushing and pressing stages, juicing soft fruits has now become much easier and more effective.

Increased Value By including only the most popular items into one convenient package, there is only one model to Green Star Elite and

Product Standard

ITEM	VEGETABLE JUICER
