# Your personal air purifier

## Compact and personal

Keep your personal surrounding clean and save space in style: that is what Sphere is all about. This compact, elegant air purifier is perfect for smaller areas and can even travel with you when you switch rooms.

## Aromatherapy

Besides removing, Sphere can also add to the air as it doubles as a vaporizer for essential oils! Just add a couple of drops of aromatherapy to the oil tank and enjoy relaxing aromas throughout the room.

## Double layer filter protection

The built-in ionizer releases negative ions into the air to capture tiny particles and pull them into the HEPA filter to produce clean air. The active carbon also removes harmful gasses and unpleasant smells like tobacco smoke.

## Lights on

The additional nightlight sets a mystic mood and creates extra convenience during the evening and night. All Sphere's settings can be adjusted with a single button operation.
