# Your personal air humidifier

## Personal comfort

Sphere makes any room look stylish and makes sure your personal space is provided with optimum humidity. This compact, elegant humidifier is perfect for smaller areas and can even travel with you when you switch rooms.

## Instant mist

The ultrasonic technology produces cold mist in just a matter of seconds. This humidifying technique is highly energy-efficient and whisper quiet.

## Ease of use

Sphere can be controlled with the illuminated key panel on top of the device. The timer and interval modes are ideal for night-time use and extend the run time on a full water tank.

## Lights on

The additional nightlight sets a mystic mood and creates extra convenience during the evening and night. The nightlight uses energy-efficient LEDs and can be controlled separately.
